

Technical Rider Julie Alapnes 2023 English Version

SOUND

Julie Alapnes' setup requires a good PA system (not a singing system) with sub. The system must be able to fill the room with good dispersion in a nice way. At the same time, it is not a full-blooded rock concert, so feel free to contact Halvard Rundberg directly to discuss viable solutions.

Mixer must be a minimum of 20 channels with sound and enough aux'es for monitor and effects.

LIGHT

We like nice lighting that fills the stage and creates atmosphere!

Monitor

Julie Alapnes with band needs 4 monitors distributed over 4 courses.
